WORK EXPERIENCE

UX/UI Designer & Front-End Developer Neutec Co., Ltd. 02/2022 - 02/2025

- Led the establishment of a scalable design system to standardize component libraries, significantly enhancing UI consistency and team collaboration efficiency.
- Designed end-to-end product experiences for gaming platforms, from initial concept and user research to final implementation and post-launch iteration.
- Optimized UI/UX workflows and information architecture, resulting in a 30% boost in user retention and a 25% rise in engagement on the gaming platform.
- Reduced page load times by 20%, significantly enhancing site speed and user satisfaction.
- Collaborated closely with cross-functional Agile teams, including Product Managers and Engineers, to continuously optimize the user interface and improve product functionality.

UI Designer Gotrust Co., Ltd. 04/2021 - 02/2022

- Optimized responsive UI designs, increasing mobile conversion rates by 10% and lowering cart abandonment rates by 12% through a redesigned checkout flow.
- Utilized Figma to create wireframes, mockups, and prototypes, crafting intuitive UI/UX for an information security platform to streamline communication across design and development teams.
- Participated in user research, translating findings into actionable design improvements and conducting continuous design maintenance to uphold quality across product updates.

Web Designer CBES Co., Ltd. 02/2019 - 03/2021

- Responsible for the UI and visual design of an e-commerce platform, collaborating with front-end engineers to maintain a responsive website for smooth user experience.
- Collaborated with front-end engineers to design and implement marketing web pages, resulting in a 30% increase in brand exposure and user acquisition.

VOLUNTEER & PROJECT EXPERIENCE

UI Designer Volunteer One Sky Collective (Social Enterprise) 11/2025 - Present

- Designed the user interface and experience for the core features of the modified sustainability application, empowering users to easily track sustainable actions.
- Used Figma to create high-fidelity prototypes and components, defining key interaction patterns to ensure visual consistency when delivering designs to the React Native development team.
- Focused on the in-app data visualization and reward systems to enhance long-term user engagement and retention, simplifying the user flow for recording environmental actions.
- Worked remotely with a global volunteer team (including PMs and Engineers) to align design direction with the social enterprise's core mission.

Freelance Content Writer SharkTech 07/2025 - Present

- Strategized content outlines based on SEO keyword analysis and user search intent to ensure high organic ranking potential.
- Ensured content accuracy and brand voice consistency through rigorous fact-checking and professional proofreading prior to publication.
- Established a long-term, sustained freelance partnership with the client based on reliable content quality and delivery efficiency.
